Profile

An organized, efficient and hard working person, and am willing to discover and accept new ideas which can be put into practice effectively.

Projects

Restaurant Management System

Developed a dynamic restaurant application using React, providing users with an intuitive and responsive interface to browse menus, make reservations, and place orders. Implemented real-time updates using React's state management, enhancing the user experience.

Portfolio

Developed a dynamic and visually appealing portfolio website using Django, showcasing my projects and skills. Leveraged Django's powerful backend capabilities to manage project data and integrated responsive front-end design for seamless user experience.
